Now Let us do Something.

We print this morning a strong and tirring letter from our fellow-citizen Mr. A. W. Campbell on the subject of a railroad connection between Wheeling and the Lake Shore & Tuscarawas Valley Railroad, now in process of construction in this direction, and would respectfully direct to it the attention of all who have business interests in this city, in Bridgeport and in Martinsville.

It is nearly fourl years since the agitation for a road in the direction of the Tuscarawas Valley was begun here; and though it has taken a good while to effect | eighty cents. A very lively interest has recently been awakened here, on both sides of the river; men begin to name the sums they are willing to put into a railroad; and it really looks as if the time for action had at last

The active interest just now awakene is due, we presume, to the fact that a project promising valuable results, and one not beyond our means, has recently presented itself in connection with the road referred to, the L. The Lake Shore Tuscarawas Valley Road starts from Elvris on the Lake Shore road some twenty-five miles southwest of Cleveland; rosses, a few miles south, the Cleveland, Columbus & Cincinnati road: and will Columbus & Cincinnati road; and will to date, \$57,208,981.

There was no mention whatever, made Lorain, Medina, Wayne, Stark and Tusat the Cabinet meeting to day, concerning the events at Havana, nor has any recent intelligence been received from that quarter. It was said this afternoon by gentler.

The company has contracts with the Lake Shore road and the C., C. & C. road in the Cuban waters, while this will have by which it secures the same advantages in respect to freights and passengers as if its line were part of those roads.
